

Professional Objective

Young computer scientist passionate about cybersecurity, data analysis, and innovative technologies. I aspire to join an organization where I can apply the practical skills acquired through certification programs, personal projects, and hands-on experience. My goal is to contribute to system security while continuing to grow professionally.

Technical Skills

- **Cybersecurity** : IDS/IPS, SIEM, network security, log analysis, incident response, Wireshark, tcpdump, access management
- **Databases** : SQL, PL/SQL, PL/pgSQL, MySQL, PostgreSQL, Oracle Database, Microsoft SQL Server
- **Data analysis** : Google Sheets, SQL, Data Studio, visualization, cleaning, decision making
- **Systems** : Linux (Ubuntu, Kali), Windows
- **Languages & tools** : Python, Bash, Git, VirtualBox

LANGUAGES

- French: Native language
- English: Technical level (reading, documentation, software interface)

Lyncold Stephensky CHERY

Junior Cybersecurity Analyst | Computer Scientist | Data Analyst

Rue Bellevue, Limonade, Haiti, HT 1130

Professional Experience

CITAS

Administrative Agent – Online forms

August 2022 – Present

- Assisted hundreds of individuals with appointment scheduling (visas, legalization)
- Monthly completion of online administrative forms

State University of Haiti – Limonade

Intern – Computer Maintenance

March 2023 – May 2023

- Preventive and corrective equipment maintenance
- Software installation, configuration, and technical support

Intern – Applicant Data Management

January 2023 – March 2023

- Organization and presentation of candidate data
- Report preparation and file archiving

Education & Training

Google Data Analytics Professional Certificate (*in progress*)

Coursera – June 2025 to present

Google Cybersecurity Professional Certificate

Coursera – April 2025 to June 2025

Bachelor's Degree in Computer Science (*awaiting defense*)

State University of Haiti – Campus Henry Christophe de Limonade (CHC-UEH-L) 2020 – 2024

- Completed coursework (theoretical and practical)
- Final project in progress – defense planned soon

Sanitary Plumbing Training

Haiti Arise Technical and Vocational School (ETPHA) – 2017 to 2018

Assets

- Attention to detail and analytical rigor
- Autonomy and continuous learning
- Interest in offensive/defensive cybersecurity and technological monitoring
- Versatility (IT, electricity, plumbing, vector design with Inkscape)

Certifications

- Google Cybersecurity Professional Certificate – 2025
- Google Data Analytics Professional Certificate – *in progress*

Centers of Interest

- Information technology, cybersecurity, automation
- Vector design with Inkscape
- Practical plumbing projects: safety, compliance, and innovation
